

Car Park Design, Build, Finance and Operate (CPMI)

Lot 1 and 2 Car Park Management and Infrastructure(CPMI) - Reference: SBS/18/JC/ZDC/9317

Potential saving opportunities - 5%

When does the framework start?

30th November 2018 – 29th November 2022

Who can take advantage?

NHS and Public Sector organisations within the UK

What does it cover?

The first truly comprehensive framework in this area; the range of options provided will help the NHS and wider public sector meet whatever needs that they have in this area. All of the major suppliers across the market are represented as well as niche specialists, allowing a great degree of choice and the possibility to procure their services in a fully OJEU compliant manner, leading to savings in both time and cost.

The Car Park Design, Build and Finance (DBF) and Car Park Design, Build, Finance and Operate (DBFO) Lots were procured as part of our framework agreement on Car Park Management and Infrastructure.

LOT 1: Car Park Design, Build and Finance (DBF)

Design and build of a Car park, with the addition to access finance if needed. Suppliers can provide the Contracting Authority with a complete DBF Solution, with the additional option where agreed by both Contracting Authority and Supplier to Maintain/Operate the Car Park.

LOT 2: Car Park Design, Build, Finance and Operation (DBFO)

The supplier, typically under a Concession type agreement, often lasting 25+ years, will provide the Contracting Authority with a complete DBFO Solution, with the additional option where agreed by both Contracting Authority and Supplier to provide FM and Maintenance.

DIRECT AWARD

Ability to directly award a contract to approved suppliers on the framework providing a timely and compliant route to market to meet your requirements.

MINI COMPETITION

Opportunity to run a mini competition to meet the bespoke requirements of each organisation; as well as helping to drive further competitive pricing.

THE ROAD TO ZERO

Supporting government's green agenda by providing EV charging infrastructure and cycle parking infrastructure.

TOTAL CAR PARK SOLUTIONS

Comprehensive offering to deliver either a single or bundled service for a wide range of products and services: from full car park management to ANPR, pay on foot, pay and display, barrier control and occupancy monitoring.

DOH HTM 07-03

The framework developed to support many of the aspects within the NHS car-parking management guidance in terms of sustainable transport, car-park management and car-park equipment.

FLEXIBLE CONTRACT TERMS

The ability to utilise a number of contracts, enabling users to mix and match their requirements and tailor individual requirements.
