

# Electric Vehicle Charging Points (CPMI)

Lot 8: Car Park Management and Infrastructure (CPMI) - Reference: SBS/18/JC/ZDC/9317

## Potential saving opportunities - 5%

### When does the framework start?

30th November 2018 – 29th November 2022

### What does the framework cover?

This framework for electric vehicle charging points will help the NHS and wider public sector meet their green agenda goals for installing vehicle charging stations and charging points infrastructure for electric vehicles. All the major suppliers from across the market are represented within this framework, as well as niche specialists, which allows for a great degree of choice and the possibility to procure their services in a fully OJEU compliant manner, leading to savings in both time and cost.

### Lot 8: Electric Vehicle Charging Points

The framework includes the delivery, supply, installation, management, and maintenance of electric vehicle charging infrastructure goods and services.

This framework includes both rapid and slow charging electric vehicle units, which can be used both on fleet vehicles and/or staff or visitor's cars. This lot includes, but is not limited to; a fully managed service, back-end solutions, pre-booking, mobile-Apps, maintenance and repairs, space management, Signage, RFID Tags, Single and multi-vehicle charging, on-street charging solutions, 'slow' and 'rapid' charging options, load balancing systems, self-contained energy storage units, induction charging and solar parking

### Awarded Providers

APCOA Parking UK Ltd, BMM Energy Solutions Ltd, Chargemaster Plc, EB Charging Ltd, GAMMA ENERGY LTD, Phoenix Renewables Ltd T/A The Phoenix Works, Yunex Traffic (Formerly Siemens Traffic), SWARCO (E.Connect, eVolt, VeriPark and APT Skidata)

### Who can take advantage of the framework?

All Public Sector organisations within the UK

### What are the benefits of using the framework?

#### DIRECT AWARD

Ability to directly award a contract to approved suppliers on the framework providing a timely and compliant route to market to meet your requirements.

#### MINI-COMPETITION

Opportunity to run a mini-competition to meet the bespoke requirements of each organisation; as well as helping to drive further competitive pricing.

#### THE ROAD TO ZERO

Supporting government's green agenda by providing EV charging infrastructure and cycle parking infrastructure.

#### TOTAL CAR PARK SOLUTIONS

Comprehensive offering to deliver either a single or bundled service for a wide range of products and services: from full car park management to ANPR, pay on foot, pay and display, barrier control and occupancy monitoring.

#### DOH HTM 07-03

The framework developed to support many of the aspects within the NHS car-parking management guidance in terms of sustainable transport, car-park management, and car-park equipment.

#### FLEXIBLE CONTRACT TERMS

The ability to utilise a number of contracts, enabling users to mix and match their requirements and tailor individual requirements.
