

Creating a comprehensive report is a painful process if approached using the wrong software. Traditional business reports are static information retrieved at a certain moment in time, which need constant effort to be up to date. NHS Shared Business Services can assist in utilising ESR Business Intelligence to minimise risk and produce accurate up to date reports bespoke for your organisation...

- Client site visit to review reporting requirements
 - Localised insight into report requirements
 - Report and dashboard creation
 - Client sign off
 - Client report creation in ESR
 - Report accessed at any time through the Self Service portal*
- *Self Service must be implemented in the organisation
