25th March 2018 to 24th March 2022

Who can take advantage?

All NHS and wider public sector Approved Organisations*

***via a quick and simple registration process**

About this agreement

The Bill Validation service ensures you are only billed for the utilities used at the rates agreed with the supplier. Mistakes are often made through estimated billing and incorrect contract charges, which means many business overpay by considerable amounts each year.

This allow budget holders in organisations to plan for the future with more informed and accurate budgeting and forecasting, improves cash flow tracking

Around 3-5% of utility invoices are incorrect, outsource companies will recover the discrepancies, taking a % as commission on a no win no fee basis. Time saved at organisation level chasing these billing errors.

Analysis and recovery offered in Energy, Water, Telecommunications, Rents/ Rates as well as a One Stop Shop for bespoke requests

Framework offers "Pre" and "ongoing" audits to ensure compliance with organisation specific policies

Benefits of using this agreement

GEOGRAPHIC COVERAGE

Suppliers able to supply all public sector authorities in the UK

BESPOKE SERVICE

Organisations can specify their exact needs and tailor services to get best value and 'fit'.
